Engagement

RevInfotech engages its clients in various flexible ways using our refined engagement models to manage client requirements that could be one time or ongoing multi-year projects.

RevInfotech is in the market for offshore consulting services since 2007, enjoying high customer retention rates and building lasting relationships with first-tier companies. Revinfotech is an attentive partner, flexible in tuning the established engagement models and helping each client make the most
out of the partnership.

Our engagement management practices are built in accordance with the eSourcing Capability Model for Service Providers (eSCM SP). Revinfotech engagement specialists customize the engagement model to work around the client enterprise specifics - from business goals to project management and HR practices.

RevInfotech offers different engagement models to meet global clients' diverse needs

Benefits of our Dedicated Teams Model

RevInfotech has a vast pool of multi-disciplinary resources to organize a tailored DTM engagement for any type Of software or mobile application project requirements.
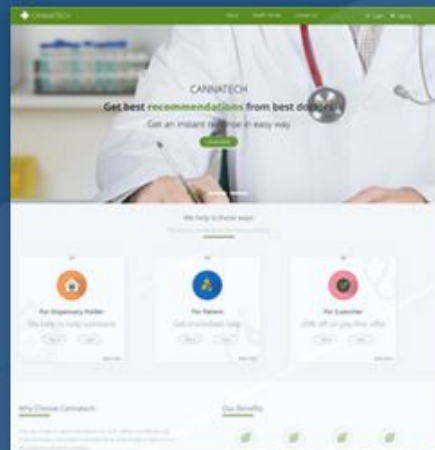

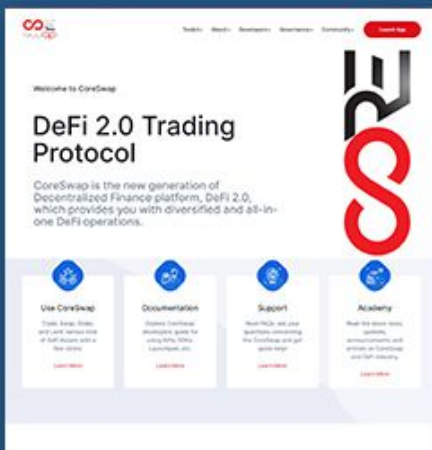

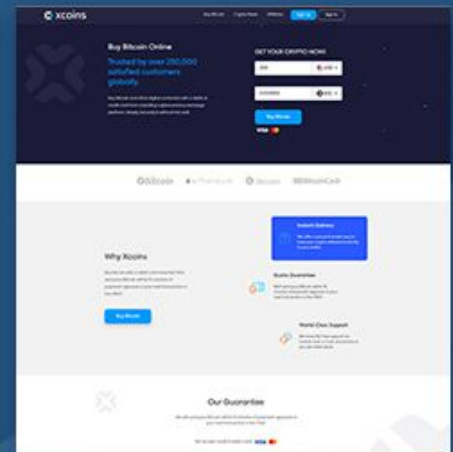

- Access to a wide-range of expert IT resources withdiverse skills across all platforms.

- Ready to use IT infrastructure with best facilitiesthat includes staging server, project management system, SVN and network support.

- Complete control over team structure (addition/replacement/withdrawal of resources) Transparent billing process and comprehensive reporting procedures.

- Complete control over your project flow including schedules/deliverables etc. Your project gets developed in an 'Agile Environment' which meansyou see your project being developed in real-time.

- Established intellectual property protection procedures and processes.

Fixed Time/Fixed Cost Project Model

RevInfotech offers customers a fixed time / fixed price model when the scope and specifications of the project are reasonably clear. Under this low-risk model we work with clients to define expected deliverables and timelines to determine a mutually agreed fixed price.

Dedicated Teams Model

Dedicated Teams Model is an excellent solution if you need a complete control over human and technical resources involved into the development process.

Quality Management

RevInfotech has always taken an uncompromising position in respect to quality. Revinfotech's Quality Management System (QMS) is a complex set of engineering and managerial activities that ensures the delivery of high quality software through the entire workflow.

Key Processes

- Full-cycle QA Testing
- Document and Code Reviews
- Defect Tracking
- Configuration Management
- Process Monitoring
- Risk Management

QA Processes

- Functional and Regression Testing
- GUI and Usability Testing
- Accessibility Testing
- Compatibility Testing
- Performance Testing
- Installation/Configuration Testing
- System/Integration Testing
- Localization Testing
- User Acceptance Testing (UAT)

Corporate Social Responsibility

We look at Corporate Social Responsibility (CSR) differently. Our employee-volunteers enjoy spending their personal time with less fortunate sections of the society. This includes teaching community students, visiting orphanages and old age homes; organizing medical camps and helping Non-Government Organizations (NGOs) sell their products/artifacts. This volunteering is for seeking personal fulfillment and joy.

QMS Tasks and Objectives

Elaboration and implementation of procedures and regulations for software development process based on the industry best practices and standards. Product life-cycle monitoring to ensure compliance with established processes and guidelines. Product quality verification and validation to ensure its correspondence with the client needs and expectations. Establishment of an effective collaboration for all production participants.

Independent QA Department

RevInfotech' QA department is an independent structural subdivision. The QA team consists of skilled QA engineers and experienced testers dedicated to a project or assigned based on client requirements. The allocation of QA engineers based on their experience levels depends upon the project size and complexity.

RevInfotech
Revolution Redefined

Our motto is to serve our clients with the best possible software resources that too at commendable prices. Some other commitments we make with our clients are:

- Complete Transparent Process
- Flexible and fast scalability of qualified resources
- Better Returns from your marketing endeavors
- Option to work with the development methodology and tools of your choice

We Bring the new innovation of creative work

Responsibility

Our primary responsibility is to deliver maximum value to our customers worldwide. In pursuance of this effort, with our dedicated teamwork, we commit ourselves to take the leadership both in development and technology of e-commerce solutions. To adhere in letter and spirit to the technical requirements and laid down systems which is essential for our products to be consistently the first choice of our customers through inbuilt quality
